

# LYONS Commercial Data™

Financial Intelligence for Transaction Processing

## Web Services **Sandbox** Implementation

This document contains information about accessing Lyons' API Sandbox, which is implemented as a Soap 2.0 Web-Service. The Sandbox replicates the functionality needed to accurately test your development and integration with Lyons' services. The API sandbox is provided as a testing environment only. Any data received through your use of the sandbox shall be used for testing and not relied on for production. Furthermore, response data received from the sandbox will not match results from production.

The sandbox environment requires a unique set of credentials, which can be obtained from your sales associate.

To access the sandbox environment, simply replace "www" with "demo" in the web address.

For example, the target name for accessing the sandbox environment for our Account Verification service is

<http://demo.lyonsreg.com/webservices/atm/>, while the target name for accessing Account Verification in production is

<http://lyonsreg.com/webservices/atm/>.

A list of the available web service calls can be found online through the following link: <http://demo.lyonsreg.com/webservices/aoa/>

**Account Number and Ownership Verification (AOS)** - Lyons will first verify the bank routing number as eligible by applying the industry standard Mod10 algorithm. Upon satisfying this requirement, Lyons will determine the existence of the routing/account number and, if found, will then verify the status of the account as being open and in good standing.

A list of the available web service calls, sample code snippets, and SOAP code for Account Verification is provided online at the following link: <http://demo.lyonsreg.com/webservices/aoa/>

**SPECIAL NOTE:** A list of AOA test transactions is provided on the following page. Use these test transactions when you want to receive a specific response code. A list of AOA inquiries that do not include designated specific response code will produce random response codes.

Lyonslive.com

**API Developer Area** - The two links below will provide additional information for developers.

Developer Help: <http://lyonslive.com/Developer-Area/Web-services-Help.aspx>

Code Snippets: <http://lyonslive.com/Developer-Area/Snippets.aspx>

If you need assistance with the set-up, or if you have general technical questions, please contact Lyons Support by calling (240) 361-1608 or emailing [support@lyonsreg.com](mailto:support@lyonsreg.com)

### AOA Test Transaction Data for Standard Response Codes

| ABA       | Account Number | Amount | Customer Present | Response Codes | Message  |
|-----------|----------------|--------|------------------|----------------|--|
| 122199983 | 987652         | 1.00   | 0                | 199            | Insufficient info to make a decision (Participant) |
| 122199983 | 91020210103    | 1.00   | 0                | 103            | Deny   |
| 122199983 | 92361077941    | 1.00   | 0                | 101            | Accept   |
| 122199983 | 91101621       | 1.00   | 0                | 199            | Insufficient info to make a decision               |
| 122199983 | 92383079138    | 1.00   | 0                | 198            | No Account Experience Available (non-Participant)  |
| 122199983 | 910206140235   | 1.00   | 0                | 197            | Ineligible for Conversion                          |
| 062102289 | 923418700      | 1.00   | 0                | 104            | Invalid ABA Number                                 |

### AOA Test Transaction Data for Error Response Codes

|           |               |                    |    |     |  |
|-----------|---------------|--------------------|----|-----|--|
| 122199983 | 9103191329277 | -1.00              | 0  | -5  | Amount value <.00 cent   |
|           | 9103191329277 | 1.00               | 0  | -20 | ABA value must be entered  |
| A22199983 | 9103191329277 | 1.00               | 0  | -21 | ABA must be numeric  |
| 1221999   | 9103191329277 | 1.00               | 0  | -22 | ABA must be exactly 9 digits   |
| 122199983 |               | 1.00               | 0  | -30 | Account number must be entered   |
| 122199983 | A10319132927B | 1.00               | 0  | -31 | Account number must be numeric   |
| 122199983 | 36            | 1.00               | 0  | -32 | Account number must be at least 3; maximum 17 characters in length     |
| 122199983 | 9103191329277 |                    | 0  | -40 | Amount must be entered (0 must be entered for Enrollment Verification) |
| 122199983 | 9103191329277 | None               | 0  | -41 | Amount must be numeric   |
| 122199983 | 9103191329277 | 123,456,789,123.00 | 0  | -42 | Amount value length must be less than 13 characters                    |
| 122199983 | 9103191329277 | 1.00               |    | -50 | Customer Present must be entered                                       |
| 122199983 | 9103191329277 | 1.00               | Y  | -51 | Customer Present must be numeric                                       |
| 122199983 | 9103191329277 | 1.00               | 01 | -52 | Customer Present must be 1 character in length                         |
| 122199983 | 9103191329277 | 1.00               | -1 | -53 | Customer Present value must be 0 or 1                                  |
